FORD 6.0L D.I.T. Diesel: Powerstroke Troubleshooting

Mike Cleary, the instructor, is an eight time award winning Ford Motor Company Certified Senior Master Technician and Powerstroke Engine Specialist. He has served on two separate Ford Technician Advisory Boards, and was recognized by Ford Motor Company for his contributions to Ford as a field technician involved in improving the 6.0L Powerstroke Engine Program. He is an ASE Certified Master Technician in both the Automobile and Heavy Truck categories, as well as being L1 and L2 Certified. He is also certified by the state of California as an Advanced Emission Specialist Technician.

He currently owns his own shop, Cleary Automotive, specializing in high tech driveability and electronics repairs on Powerstroke Engine Systems, having worked on Powerstroke vehicles daily since their release in the mid 1994 model year. He also provides high tech driveability and electronics training for technicians worldwide for his training company, Automotive Technical Support Services.

LEARN FROM A HANDS ON WORKING POWERSTROKE TECHNICIAN!

SEMINAR OUTLINE:

- Powerstroke systems operation
- Powerstroke subsystem strategies and operating systems
- How to diagnose and repair the most common fault codes
- Increase your knowledge of various electronic engine control system components
- Troubleshooting shortcuts to increase your efficiency
- Learn that a "memory code" may be a "hard fault"
- Analyze actual case studies in order to become more effective with your diagnostic skills
- Technical Tips, Technical Service Bulletin Info, and other "Need To Know" Info
